## **EXAMINER'S AMENDMENT**

Page 2

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 11 to 16 non-elected without traverse. Accordingly, claims 11-16 have been cancelled.

The following is an examiner's statement of reasons for allowance:

The arguments on pages 9 through 11 in Applicant's response filed September 11, 2003 were persuasive.

The prior art, either singly or in combination, fails to anticipate or render obvious, the limitations of an insulator layer comprising a silicon nitride comprising region received intermediate the silicon dioxide comprising layer and the source/drain regions and running along only a portion of the channel region between the source/drain regions in combination with the other limitations of the independent claims 1 and 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
